

ESI eMobile™

for eSIP Evolution Series™ & Titan Series™ users

GREAT for Home Workers!

Take Your Extension Out Of The Office

Whether you're out of the office for professional or personal reasons, your business doesn't stop operating just because you're away. Take the critical features of your business phone on the go by using the **ESI eMobile™** application for smartphones. Access voice mails, contact directories, and call recording features from wherever you may be, and always stay available to receive calls from your most valuable clients!

Key Features & Benefits:

- Call handling just like on your desktop phone: (Transfer, Mute, Hold, Record)
- View your extension's Call History
- Access corporate directories and personal contacts
- Listen to voice mails and call recordings
- Easily create conference calls directly from the app
- Set Presence Status: Available, Away, DND, Lunch Break, and Business Trip
- Supports a mobile workforce: great for remote workers, road warriors, or anyone whose job requires them to be accessible outside of the office
- Works with iOS and Android smartphones
- For eSIP Evolution Series™ & Titan Series™ users

Upgrade to ESI eMobile Plus™ For Added Speed, Security, & Quality

- **Effortless Set-up:** cloud-enabled to deploy quickly with no need for static public IP addresses or port forwarding!
- **Enhanced Resilience:** safeguards your communications and network's security by eliminating port exposure to the internet!
- **Better Call Quality & User Experience:** Connectivity issues caused by ISP restrictions or NAT configurations are a thing of the past!
